

### New Faces at Controlled Release Technologies

Shelby, N.C. – Controlled Release Technologies, Inc. (CRT), is pleased to announce the hiring of Jonathan Dunagin. His role as Marketing Director is to expand the company's current sales, clientele and communications.

Dunagin is a graduate of both Clemson University and the University of South Carolina, where he received a Masters in Mass Communications. Following college, he worked in the radio and music industries for over six years, serving as the Special Events and Marketing Director for several South Carolina entertainment venues. He has worked with thousands of different artists and entertainers, including B.B. King, Loretta Lynn, Air Supply, The Marshall Tucker Band and Seether.

DUNAGIN

"We were very impressed with Jon's extensive education and marketing experience," said Lynn Burkhart, Founder and President of CRT. "He brings with him the determination and drive to succeed that our company was founded on."

CRT also announces the hiring of Kristen Burgess as Client Services Representative. Burgess, a native of Kings Mountain, N.C., is a 2007 graduate of Hope Christian Academy. While attending, she participated in numerous extracurricular activities, including Future Farmers of America and the yearbook staff. She was also voted homecoming queen, head of the cheerleading squad, and captain of the soccer and volleyball teams.

BURGESS

Before joining CRT, Burgess worked for several years in retail sales, and she currently serves as a reading and math tutor at Carr Elementary School. "Kristen's personable demeanor and strong work ethic make her an invaluable addition to the CRT team," said CRT Executive Director Trish Burkhart.

For over 25 years, Controlled Release Technologies, Inc. has created innovative, proactive solutions for preventing HVAC problems. Their numerous maintenance and indoor-air-quality products include PanGuard, AlgaeGuard, Instant Powder Kegs and Pancrete. For more information about their products, contact CRT at 1-800-766-9057 or visit [www.cleanac.com](http://www.cleanac.com).

### Florida Governor Signs Mold Bill

In an effort to let experienced mold professionals avoid an unnecessary certification process, Gov. Charlie Crist (R-FL) signed a bill this week that makes substantial changes to the certification of mold remediators in his state.

The new law amends an overhaul of the system enacted in 2007. The system had been the subject of criticism because it did not allow for "grandfathering" of individuals who have been working in this field for many years and have proved that they understand the safety issues involved.

Under the new legislation, mold assessors must obtain a \$1,000,000 insurance policy to cover both preliminary and post-remediation assessment. Individuals who wish to be certified through the grandfather provision will have to submit an application to the Florida Department of Business and Professional Regulation (DBPR) by March 1, 2011, and show either (A) certification by a state or national association that requires successful completion of a proctored exam for certification, and completion of at least 60 hours of verifiable education for an assessor and 30 hours of education for a remediator; or (B) at least 3 years of experience as a mold assessor or mold remediator.

## Triple your money in 10 minutes!

Year-Round Green Product for your business

**Stopping air leaks will maximize HVAC efficiency!**

Sealing the envelope of the home will allow the HVAC system to heat or cool only the air in the home.

**Attic Tent**  
Seven Sizes Available

HVAC systems in homes are designed for a closed envelope, making air balancing with supply and return air very critical. Every time these systems are operating, they create a positive or negative pressure, thus forcing conditioned air out or drawing outside air in the home. The Attic Tent is the perfect green product to seal the attic access door stopping air infiltration. It comes fully assembled and ready to install in just 10 minutes.

Easy Sale! Just add installed price of the Attic Tent to the invoice/quote for your service and install Attic Tent for free! Our suggested installed pricing was set from quotes from other contractors already installing the Attic Tent in their day to day business. *It works for them, it will work for you.*
